

Click Favorites menu.

Name _____

Choose National Library of Virtual Manipulatives.

In the matrix, go to Measurement & 9-12.

Click Converting Units.

<http://nlvm.usu.edu/en/nav/vlibrary.html>

Copy the “convert” statement onto your paper with your final correct answer.

For each problem, keep a tally of how many “no cancellation available, undo and try again” you are given and record it by your answer with a box around it.

Example:

12 m to inches = 472 in.

If I had to undo three times before I got it correct!

Complete 10 conversions correctly.

1.

6.

2.

7.

3.

8.

4.

9.

5.

10.

When finished, go back to the matrix and choose one of the following activities to explore:

Under Numbers & Operations:

Any one you choose.

Turtle Geometry

Under Algebra 9-12:

Algebra Balance Scales – Negatives or

Choose Function Machine or

Coin Problem or

Towers of Hanoi

Under Measurement 9-12:

Fill and Pour or

How High?

Under Data Analysis & Prob.:
